

Greaselift™

EFFECTIVE DEGREASING MADE SAFER*

Performance matters...

As effective as caustic degreasers

- ▲ Penetrates grease quickly
- ▲ Cleans ovens, grills, hoods and vents
- ▲ Perfect for deep and daily cleaning
- ▲ Aluminium safe
- ▲ Easy to use

Safety matters...

Positively promotes a safer working environment

- ▲ No PPE required (Personal Protective Equipment)
- ▲ Eliminates risks normally associated with aggressive degreasers
- ▲ No noxious odours, safe for others working close by

* When compared with caustic degreasers. Greaselift is non-corrosive and less irritating.

.....
The only degreaser to achieve
outstanding results without
the need for **PPE**.
.....

Sustainability matters...

Making a positive environmental impact

- ▶ Readily **biodegradable**
- ▶ Available as a **2 litre concentrated pouch** that can be dispensed into **reusable** spray bottles
- ▶ Helping to **significantly reduce** packaging waste

DIRECTIONS

1. Ensure surface is warm not hot before use (max 55°C). Spray Greaselift onto surface, covering soiled area completely with foam.
2. Allow Greaselift to penetrate grease deposits for 3 - 15 minutes depending on the soil level. Do not let product dry on surface.
3. Wipe off dissolved and loosened grease with a scrub pad or a damp cloth.
4. Rinse surface with clean water.

NOTES

- ▶ Greaselift does not require gloves, goggles or face mask. Caution should be used when cleaning warm surfaces.
- ▶ Personal Protective Equipment should be worn when changing the 2 L pouch.

PACKSIZE

Greaselift RTU	6 x 750 ml
Greaselift Super Concentrate	2 x 2 L
