

# Trident

## Sanitising powder

The blend of detergent & chlorine releasing agents make it suitable for a variety of applications in catering, housekeeping, leisure, healthcare & the dairy industry.

Cleans & disinfects washable hard surfaces & equipment in one operation.

Provides in excess of 10,000 ppm available chlorine. for use in high risk areas.

- Ideal wherever food is prepared, handled or served.
- Highly recommended for sanitising vending machines, refrigerators & for soaking cloths & mops.
- Removes tannin from crockery & mould & mildew from grout.
- Formulated to be used neat directly from the 500 g shaker pack or dissolved in water to solve a variety of tasks.

Food preparation surfaces & contaminated areas.	Sprinkle powder onto damp cloth or sponge & wipe surface until clean. Rinse with clean water & allow to air dry.	Available chlorine: In excess of 10,000 ppm
Kitchen & dairy equipment. Floors & walls.	Prepare a 4% solution (40 g per litre of warm water). Immerse washable equipment. Alternatively, wipe solution onto equipment & rinse with clean water. Allow to air dry.	Available chlorine: 1,000 ppm
Vending machines.	Prepare a 1% solution (10 g per litre warm water). Immerse removable parts in solution. Alternatively, wipe solution onto machine parts & rinse with clean water. Allow to air dry.	Available chlorine: 250 ppm
Tannin removal & cloths.	Prepare a 1% solution (10 g per litre warm water). Immerse crockery or cloths for up to 30 minutes & rinse thoroughly with clean water. Allow to air dry.	Available chlorine: 250 ppm
Hand cleaning of bulk milk tanks.	Rinse tank with clean cold water. Sprinkle powder onto wet tank surfaces working into a paste with a soft tank brush. Brush paste over all surfaces, paying attention to paddle, bridge, underside of lids & outlet. Leave for 5 minutes & then rinse with clean cold water.	Available chlorine: In excess of 10,000 ppm
